

Electronic Return Originator (ERO) NEW for January 2003! File your Business Clients' Forms 940 and 941 Electronically!

What are the Benefits/Features?

It's Convenient

- Electronic Acknowledgment within 48 hours
- Integrated File and Pay option

Fast

- Information is quickly available to IRS Customer Service sites
- Processing time is reduced to one week or less

Accurate

- Fewer risks of transcription errors
- Error rates of less than one percent

Safe

- Tax information is secure
- Only authorized users have access to the system

Paperless

- Personal Identification Number (PIN) is used as the business filer's signature

How to Enroll?

If you're already an ERO, you do NOT need to revise your Form 8633, *Application to Participate in the IRS e-file Program*. If you're not yet enrolled, visit www.irs.gov for more information on how to become an ERO.

How will your business clients sign the return?

A PIN is used as the business filer's signature. You or your client would register through an approved software provider for a PIN. The software will request information pertaining to your business client. This must be accomplished before filing your client's return. The IRS will then send the business client the PIN. When the business client receives the PIN, they will be ready to file their Forms 940 and 941 electronically.

When will software be available?

Talk to your Software Provider today to find out when they plan to offer the latest *e-file* for Business Products or visit www.irs.gov for a list of Software Providers.
